

# TIGRE 4800 F

## AC TRACTORS

**TIGRE 4800 F** steering tractor with different-sized wheels designed for specialized agriculture, grounds care, construction and earthmoving applications. The new styling, in keeping with the **family-feeling** of high range **AC** tractors, is not only aesthetically pleasing, it also helps optimize operating efficiency. The dynamic, streamlined profile of the bonnet, combined with the stylized design of the mudguards, complete with integral lights and extensions, makes for excellent all-round visibility.

N°1 SPECIAL TRACTORS

# TECHNICAL DATA: **TIGRE 4800 F**

## Frame

ACTIO™ integral oscillating frame • Steering wheels • Different-size wheels and four-wheel drive • Rear final drives

## Engine type

Direct injection diesel  
Emissions Standard: **Stage 5**  
No. of cylinders: 3  
Rated rpm: 2800  
Tank capacity (litres): 30

Power kW/CV (97/68/CE): 28,5/ 38,7

Max torque (Nm/rpm): 126/1690

## Transmission

Easy-shift mechanical gearbox with 12 speeds (8 FWD + 4 REV)

## Power take-off

Standard at 540 rpm and synchronised with all gearbox speeds

## Shaft

ASAE 6 spline 1 3/8" shaft with easy coupling

## Hydraulic lift

Rear with 3-point linkage - Cat. 1 and 1N - Adjustable top link and lift rods - Capacity (kg): 1000

## Steering

Hydraulic with load sensing system

## Brakes

Service brake and parking brake;  
Steering brakes

## Platform

Suspended on vibration dampers

## Weight

With roll bar: 1250 kg

## Dimensions

With front tyres: 7.50-16

rear: 9.5 R20
